How did she get voted
in at all? That was
absolutely worthless.

Simple. She was voted
because she was liked,
and mariah appeared,
who
never attends except to
vote.

Notice she doesn't give
an example of any sort
of change she would
make. She just said "good
changes."
That's because she
doesn't think changes are
needed.

I'm very surprised to see
that she has a tolerant
stance of arcane study.
Is there a reason for
this? I assumed she would
be strongly against it.

It's politically wiser to
not show one's self as
being overly prejudiced or
emotional towards any
group.

Do you need something
explosive prepared?

No, I like them today.
Maybe tomorrow I won't
but we'll see.
Did the Protectorate or
Starfire actually do
anything about the orcs,
like Sid claims? I don't
recall them doing anything.

Technically, no. Orly did
with another's help?

Forget whom.
